Our goal is to provide a safe environment for kids with Type 1 Diabetes (T1D) to experience an outdoor summer camp just like any other child. Not only do campers engage in recreational activities, they also learn about their disease by receiving both formal and informal education. Throughout camp, we provide education regarding diabetes self-management under the supervision of camp nurses and through counselors who model responsible diabetes management. We also serve the needs of parents and family members through support and opportunities to meet other families. Camp Sweet Life aims to provide a good foundation so that kids with T1D can successfully develop emotionally, socially and physically in spite of their disease.

**Camp Sweet Life will run from July 27-July 31, 2025 at
